

Job Description

Feeder/Stacker

Job Type: Full-time hourly employment.
Reports to: Converting Supervisor
Salary: Entry level manufacturing salary. DOE

Duties and Responsibilities

- Perform the repetitive task of loading corrugated sheets on a box press or die cutter in the sequence designated by the operator.
- Use tools like screwdrivers, tape measures, pliers and wrenches to assist in setting up machine.
- Stage corrugated sheets for future processing while loading on machine.
- Notify supervisor or operator of defective raw material, equipment, tools, or other conditions which hinder assembly process.
- It is important for prospective feeders to be physically fit, as throughout the course of a day they may be required to lift heavy objects.
- Perform general clean-up tasks to keep work area clean and free of excess debris.
- Maintain personal work area in accord to Kaweah's GMP and HACCP expectations.

Skills and Specifications

- Physical ability to stand for long time.
- Physical ability to periodically lift heavy objects.
- Should have strong hand-eye coordination.
- Ability to operate various assembly tools.
- Sufficient physical reflexes and personal mobility.
- Good clarity of hearing and speech.
- Ability to read a tape measure.
- Ability to perform basic math.

Education and Qualification

- High school diploma or GED from an accredited institution.
- Previous manufacturing experience a plus.
